

CHANGE IN FILE STATUS
APPROVAL FORM

DATE January 2, 1987

CURRENT FILE NO. ACT/019/013

RECOMMENDED FILE NO. DOE/019/009

COMPANY AND MINE NAME T.I.G.R., Blue Cliff Mesa

REASON FOR CHANGE IN FILE STATUS

This file is based entirely on 11 photocopied photographs of an old underground minesite. There is no MR-1 or supporting documentation. The file is listed in Energy Fuels Nuclear's name, but they have never acknowledged it in any correspondence. A check of the Division's and State Land's files revealed that a group by the name of T.I.G.R. holds the state lease on this property and filed DOE/019/009 with the Division in April, 1980. T.I.G.R. stated (in a letter that accompanied the DOE) that they planned on cleaning up the litter and junk in the area with a bulldozer.
